**ELK PRODUCTS ANNOUNCES NEW TWO-WAY WIRELESS
RECESSED DOOR CONTACT**

HILDEBRAN, NC – ELK Products, a premier manufacturer of security and automation solutions, is pleased to announce the availability of their new ELK-6023 Two-Way Wireless Recessed Door Sensor.

The recessed door sensor mounts into a 3/4" drilled hole in a wooden door jamb and becomes nearly invisible once the door is closed, providing the ultimate wireless security device for discriminating customers. It features ELK's industry leading two-way technology with positive signal acknowledgement, extended range, and long battery life.

The ELK-6023 Two-Way Wireless Recessed Door Sensor is designed for use with the ELK-M1XRFTW Two-Way Wireless Transceiver for the M1 Security and Automation Control. The M1 allows up to 144 wireless zones in residential and light commercial applications. For more information on ELK's Two-Way Wireless line visit www.elkproducts.com
