**ELK PRODUCTS' NEW TWO-WAY WIRELESS RECESSED  
DOOR CONTACT IS NOW AVAILABLE IN BROWN!**

HILDEBRAN, NC – ELK Products, a premier manufacturer of security and automation solutions, is pleased to announce the new Two-Way Wireless Recessed Door Contact is now available in brown!

The ELK-6023BR recessed door sensor mounts into a ¾" drilled hole in a wooden door jamb and becomes nearly invisible once the door is closed, providing the ultimate wireless security device for discriminating customers. It features ELK's industry leading two-way technology with positive signal acknowledgement, extended range, and long battery life.

The Two-Way Wireless Recessed Door Sensor is designed for use with the ELK-M1XRFTW Two-Way Wireless Transceiver for the M1 Security and Automation Control. The M1 allows up to 144 wireless zones in residential and light commercial applications. Learn more about ELK's Two-Way Wireless line and how to avoid the vulnerability associated with traditional wireless sensors at
