**SPECIFICATIONS FOR ELK-73**

**SPEAKER ONLY**

- Impedance: 8 Ohms
- Power Rating: 20 Watts RMS
- Cone Material: Weather resistant Mylar
- Magnet: Oversize Ceramic
- Case material: Paintable ABS
- Mounting: Single gang box or universal four hole

- **Size:** 4-9/16” x 4-5/16”

**SPECIFICATIONS FOR ELK-74**

**SIREN / SPEAKER**

- Operating Voltage: 6-14 Volts D.C.
- Sound Pressure Level: 100 db (14 Volts D.C. @ 1 meter)
- Current Drain: 480 mA
- Magnet: Oversize Ceramic
- Case material: Paintable ABS
- Mounting: Single gang box or universal four hole

- **Size:** 4-9/16” x 4-5/16”

**LIFETIME LIMITED WARRANTY**

Elk Products, Inc. (“Manufacturer”) warrants to the original purchaser (the “Customer”) that the products it manufactures (“Product”) shall be free from defects in material and workmanship at time of shipment. Manufacturer’s obligations under this Limited Warranty shall be limited to repairing or replacing, at its option, free of charge, any product returned to Manufacturer freight prepaid. Manufacturer shall have no obligation under this Limited Warranty or otherwise if (1) the Product has been damaged by negligence, accident, mishandling, lightning or flood, or other Acts of God, (2) the Product has not been operated in accordance with its operating instructions, (3) the Product has been altered or repaired by anyone outside Manufacturer’s authorized facilities (4) adaptations or accessories have been made or attached to the Product which, in Manufacturer’s sole determination, have adversely affected its performance, safety or reliability. Products such as batteries and fused transformers have their own warranties, and are not included in this Limited Warranty. If a Product should malfunction or fail, contact Manufacturer or one of its authorized distributors for a Return Authorization (RA) number. Returned Products must include a complete description of the problem, along with the RA number clearly marked on outside of the package. Manufacturer will not be responsible for any unnecessary items included with any returned Product.

---

When replacing an existing ELK-SP35, SS36, or similar unit, the wiring condition shown below may be encountered.

1. **Backplate Features**
   - Cover “Pry Off” Slots (2)
   - Speaker Hold Down Snaps
   - Speaker Anti-rattle Springs
   - Wire Wrap Posts (Both Sides)
   - Tamper Switch Holder

2. **Replacement Unit**
   - Cut A New “Trench” in Drywall To Bring The Wires From Under The Center Sound Disc
   - Existing Wiring Hole
   - Existing Mounting Hole

3. **INSTALLATION AND INSTRUCTIONS**
   - The purpose of the wire wrap posts are to add some strain relief and to prevent wires and connectors from rattling against the speaker cone.
Snapping the Speaker in Place

The speaker may be rotated and snapped in to any of four positions, but works best as shown. Slide the speaker under the lower speaker holders then snap the other side of the speaker into the upper flexible speaker holders.

Speaker With Siren Driver

Connect to security control's 12volt alarm output. Do not connect the ELK-74 (siren) to a siren driver or audio source. Do not exceed the alarm power rating of the security control.

YELLOW: +12 Volts D.C. STEADY
RED: +12 Volts D.C. YELP
BLACK: NEGATIVE (GND)

Special Note:
If desired, the ELK-74 (siren) can be used as a "speaker only". Just clip the indicated jumper, then solder a lead to each of the speaker terminals where they come through the circuit board. The board doesn't need to be removed.

Installing the Cover

The cover will only fit one way. Snap the cover on with the tamper switch depressor positioned over the tamper switch location. (even if the tamper switch is not used)
