Search Google Play For:
'M1 Touch Pro'

Highly Recommended by:

App requires a M1XEP running firmware version 1.3.28 or above. App screenshots may vary depending on the app version.

One License

Purchase the app once and the whole family can use the app on their device (providing the same Google Play Account is on all devices)

Free Updates

Download the app with confidence as all updates are Free from the Google Play Store.

Simple Interface

Simple and uncluttered graphical touch screen operation.

No Monthly Fees

No recurring fees or monthly charges, just a one off low payment.

Google Play Reviews

Awesome tech support! Had a issue with my configuration and tech support responded quickly to email and was able to help me get the issue resolved.
Google Play Review - Troy

Great layout. Easy to find the functions. Fast syncing over 4g and almost instant feedback of zone status change.
Google Play Review - Miklos

Not only does this app give you more functionality than using a local keypad, it also comes with top notch support.
